

Super Multi

Advanced vitamin complex with special nutrients!

Product information

Super Multi contains all necessary vitamins and minerals in well-soluble natural compounds with high absorbability and bioavailability. An extra antioxidants complex has been added, which is not only capable of destroying free radicals in an effective way, but can also reactivate itself due to the balanced proportions, after it has been oxidized.

Also, the beautiful red color of the Super Multi tablet is caused by a super-healthy red beet extract. Super Multi is also the first multivitamin in the Netherlands using the richness of South American fruits such as Goji, açai, mangosteen, pomegranate and green coffee.
